The Champion Runabout Horse of the West Defeated in His Own Special Class-Mr. Busch Won the Tandem With Marie and Odette.

Mrs. John C. Roberts's handsome gowns have received much flattering commendation during Horse Show week. Mrs. Roberts has made her appearance almost nightly, and either occupies a box or else sits in the first tier and joins the promenade On Tuesday night she wore a violet gown of satin veiled in embroidered black net, with boa of white tulle, tipped with black chenille, to complete the costume, and a large black velvet plumed hat.

Mrs. Roberts has each year taken a genuine civic pride in the Horse Show, and regards it as her duty as a St. Louis matron of social prominence to evince such pride by outward and visible signs—that is, by a frequent appearance in the Coliseum. Mr. Roberts's enthusiasm for fine horses has imbued his wife with a strong interest in them, and, as both are hospitable and social in their tastes, they always appear with

Several very good rigs and horses got the gate, including an awfully nice-looking turnout owned by P. H. Wilson, the gig being especially fine and well appointed.

Mr. Busch's splendid tandem pair, Marie and Odette, on their very best behavior, won a hot tandem class, from which dealers and professional showmen were excluded. Mr. Busch was not driving as well as he has been in this show, but his mares had gle claimed that a clerical error put Princ

When the Fire Department arrived Assistant Chiefs Thiery and Coughlin found in the basement of the store two rooms nearly full of paper soaked in gasoline, two cans of the explosive, the gas turned on and two candles lighted.

I have learned from long experience the VALUE OF CLOSELY OBSERVING THE EFFECT OF MY TREATMENT IN EACH INDIVIDUAL CASE, and to carefully watch the various changes of tissue and shrinkage of varicose veins, the restoration of lost sexual power, the gradual growth of the parts, and a dozen other different points so significant to the giance of the practical physician. By this constant, close inspection any lagging of progress is detected and remedied at once, thus avoiding any delay in the cure.
